

# Physician Led Education

Productivity. Expertise. Confidence.

**GE is committed to enhancing your ultrasound education.**

## **Let us help to elevate your ultrasound skills through our physician led 4D course**

This in-depth 1 day course will present the technical and clinical principles of current and emerging ultrasound technologies including acquisition of optimal 4D TEE datasets, advanced 4D TEE navigation tools, and advanced 4D TEE quantification tools used in the CVOR, Interventional and/or Hybrid Lab setting, including, but not limited to: TAVR, MitraClip, LAA procedures and Septal procedures.

### **Productivity**

Use this supplemental training to help improve patient care using innovative education techniques to promote optimization and performance of system's advanced technologies.

## Expertise

The Vivid E95 provides extraordinary and innovative quantification tools with excellent image quality to help improve diagnostic confidence. GE's physician led education course will give you the tools to help enhance your expertise and your overall experience on your Vivid E95 ultrasound system.

### Principles and Essentials 4D Echocardiography course topics

- The role of 4D TEE in the Cath Lab, Hybrid Room and Operating Room
- The basics of 4D Echocardiography
- Advances in 4D TEE image acquisition, navigation and quantification
- Use of 4D in procedures including but not limited to MitraClip, LAA Occlusion and TAVR
- Automated quantification tools to assess the AV, MV, LV and RV

## Confidence

GE's advanced education courses give you the tools to help enhance your expertise and increase the clinical experience on your new ultrasound system.

- Uninterrupted learning environment to help maximize educational experience
- Practical concepts to help increase clinician skill levels
- Taught by experienced credentialed clinical and product experts
